

Mulch and Wood Chips

I would like the City of Sugar Hill Street Department to deliver wood chips to my home. I am a citizen who lives inside the City limits of Sugar Hill.

I understand these chips are **not of the best quality**, and are made out of fresh wood limbs, etc. that the Street Department has collected and put through the chipper. The load will be approximately 11 cubic yards/a full load. The City is not responsible for any damage that might occur in delivery of these chips.

There are chips located at 1498 Hillcrest Drive that may be viewed between the hours of 7:00 a.m. to 4:00 p.m., Monday through Friday, to determine whether or not I want the chips provided. Once delivered, the City of Sugar Hill will not remove the chips **for any reason**.

Please fax your request to the Sugar Hill Street Department at (770) 932-9951. Please designate where you would like to have the chips delivered and any other special instructions.

Acknowledged this _____ day of _____, 2010.
